WORK EXPERIENCE

One Mortgage Systems   **June 2021 – June 2022**
Junior Software Developer
Horsham, UK
- Tech stack: .Net, Azure, SQL, JavaScript, C#, HTML.
- Implemented a range of client driven UX features using HTML/CSS, C# and JavaScript.
- Successfully completed 90% of bug fixes assigned to me, in the front-end and back-end, within a 2-week period, in accordance to the SLA.
- Responsible for preforming acceptance testing on the features that I was working on

Reed Online   **Jan. 2021 – Apr. 2021**
Software Quality Assurance Intern
London, UK
- Handled regression testing to ensure front-end systems are in working order.
- Worked with the QA team directly to address any tickets for the front-end codebase.
- Reported directly to the Senior Developer when issues were found in the system.
