WORK EXPERIENCE

Junior Software Developer
One Mortgage Systems

06/2021 - 06/2022   *Horsham, UK*
Achievements/Tasks

- **Tech stack:** .Net, Azure, SQL, JavaScript, C#.
- Implemented a range of client-driven UX features using HTML/CSS, C# and JavaScript.
- Successfully completed 90% of bug fixes assigned to me, in the front-end and back-end, within a 2 week period, in accordance to the SLA.
- Responsible for preforming acceptance testing on the features that I was working on.

Software Quality Assurance Intern
Reed Online

01/2021 - 04/2021   *London, UK*
Achievements/Tasks

- Handled regression testing to ensure front-end systems are in working order.
- Worked with the QA team directly to address any tickets for the front-end codebase.
- Reported directly to the Senior Developer when issues were found in the system.
